

Telematics Solution

Who Are We & What We Do?

CSE, which stands for Communications & Security Electronics is the forefront leader as a turnkey ecosystem solution provider for the automotive, fleet and insurance industry players. CSE Group has embarked into the 21st century by providing telematics technologies that keep people safe through its intelligent connected systems.

Driving Peace of Mind

The introduction of the remote control car alarm changed the way drivers interacted with their vehicles. That took place 35 years ago. CSE was at the forefront then; introducing this industry-transforming technology to Asia. Today, the CSE Group continues to provide market-leading original equipment (OE) products and services to the automotive, fleet and insurance sectors.

Get to know how CSE can help you better manage your fleet to boost your business. Reach out to our friendly Philippine distributor
